

## ASTROLOGY

### APRIL

I had finished speaking and was saying goodbye to the people as they were leaving church, when a young lady made it quite clear to me that she was angry, because I mentioned in my lecture that God hated astrology.

(Isaiah 47:13) This lady informed me she was a professional astrologer and told me in no uncertain terms that I was a false teacher. Having said that, I would like to share with you an email, I just recently received

*I have been fascinated with astrology, not anything to do with forecasts or future explaining the past. It is so interesting, but I feel dizzy and kind of bad after reading it. I finally googled the question is astrology a sin? tonight and yep I got a page full of folks saying yes. Your site is my second one that I have read. I was liking the esp name and I don't know, I really like anything spiritual, but new age . I have been rationalizing for 2 years that the new age will prove that it is not bad if you believe in Jesus and are a Christian. I have finally found something that I really like to do when I want to relax. I love the birth charts and destiny paths I guess it is an escape from reality. Please pray for me. My name is (name withheld).*

I of course replied to the lady; however I want to share some other thoughts. On my Google server I found over **54 million web sites on Astrology** and practically every newspaper, even the conservative ones carry the horoscope. I was saddened at the time when I learned Princess Diane had her own private Astrologer, also Nancy Regan consulted the stars.

In my research I learned that the Babylonians and Chaldeans invented Astrology, it wasn't discovered; it is a pseudo science, they believed there was a deity in each of the constellations and that the earth was flat. It wasn't till Copernicus came along and found that the earth was round and hanging in space.

However the Bible had told us a long time before Copernicus came along that indeed the earth is round

(Isaiah 40:22) and hangs in space (Job 26:7)

Another concern of mine is how Atheism seems to be taking a hold on our youth in this country. I plan to write about this in the near future.

Thank you for helping me to reach out to the lost and may God richly bless you.

Love in Christ

Ben
